### About Off-Road Short Course Nationals Racing

The Off-Road Short Course Nationals series presented by PodiumSxS.com is the premiere short course off-road racing series in Texas. Founded in 2013, the family owned and operated series is an entry level racing series showcasing all levels of racers from beginner to professional. There are several different classes available for all skill levels. The series features wide tracks with room to race each other on a side by side level instead of against a clock. This organization was created to support the needs of our racers while staying true to the family values that we all love about off-road racing.
